AuraTransformation™ is an energy treatment method that powerfully activates the influx of the New Time energy. An AuraTransformation™ provides a permanent and radical expansion of consciousness creating synergy between your charisma, drive and intuition, which is also combined with physical action.

The AuraTransformation™ and the consciousness expansion that it creates can bring about many beneficial changes on both personal and universal levels. An AuraTransformation™ dramatically reinforces the impact of the interface between your individual energy field and physical reality. Therefore, you will naturally and easily become less troubled by either the small or large challenges that may have appeared to be coming from outside yourself. Your energy will no longer unconsciously fuel hidden agendas and programs that your true self does not condone. This releases a clear stream of energy from a reservoir that was formerly blocked, stagnant, and murky. You obviously become more happy and focused.

AuraTransformation™ is not just a healing method but a tool that can be used for the benefit of individuals who want to upgrade and expand their consciousness, thus aligning themselves with the most current energies.

An AuraTransformation™ allows the spirit energy of a person's aura to open up to the new powerful Indigo and Crystal energy impulses. It then delivers these impulses to the physical body via the balance aura body so that the physical body can translate the impulses into action.

An AuraTransformation™ is not a quick fix for all of life's problems. Rather, it opens a door to the process of reclaiming your own power.

AuraTransformation™ is not a substitute for qualified health care for the physical body and/or the mind and is not intended to cure diseases.

AuraTransformation™ is intended for people who are relatively stable in their physical and mental health. Furthermore, it is especially important not to get an AuraTransformation™ when emergency professional help is needed.

AuraTransformation™ is not something you merely try out, just to see what it's all about. An AuraTransformation™ is a permanent and thorough expansion of your own consciousness and awareness with no option of turning back – the change is permanent.

After an AuraTransformation™ you will begin to take major shortcuts in life. However, you are the one who does the work! In the New Time, nobody else will do the job for you. Everything depends on how much effort you put into your life.

An AuraTransformation™ can only be carried out by performed by a highly qualified Aura Mediator™. The Aura Mediator™ works with pure balanced energy during the AuraTransformation.™ This energy will be integrated into the client's own energy system. An AuraTransformation™ jump-starts a major personal evolutionary process, going way beyond the artificially created illusions of duality and hierarchy consciousness. This creates deep inner balance that cannot be described with words. You simply have to experience it!

THE FOUNDER – ANNI SENNOV

Anni Sennov is the founder of AuraTransformation™, which is a powerful method for expanding your consciousness. Furthermore, she is the founder of the Aura Mediator Courses™ which take place in different countries around the world. She works on a daily basis with the directors and course instructors of the Aura Mediator Courses™.

Anni Sennov is a clairvoyant advisor, international lecturer and the author of more than 20 books about spiritual energy, consciousness and self-development, as well as AuraTransformation™, personal development, New Time children and relationships, etc., of which several books have been translated from Danish into a number of languages.

With her husband, Carsten Sennov, Anni is a partner in Good Adventures Publishing, and in the coaching & consulting firm SennovPartners, where she advises clients about personal development, energy and consciousness.

Anni and Carsten Sennov jointly created the personality type indicator the four element profile™, which includes four main energies corresponding to the four elements Fire, Water, Earth and Air, which everyone has in different combinations and strengths.

Anni Sennov was born in Denmark in 1962 and she originally began her career in the financial world. Since 1993 she has had her own practice in personal counseling. Her great strength is her ability to clairvoyantly perceive multiple relevant situations and circumstances in her clients' personality and consciousness.

In 1996, after several years of serious illness and years of intense work with New Age Energies, she gained access to consciousness-based knowledge of the New Time Energy and the future human aura structure. No one else knew about this in Scandinavia at the time. This was the dawning of a new controversial trend of having your aura transformed to match the New Time Energy through an AuraTransformation™.

Anni Sennov's work and books are mentioned in numerous magazines, newspapers and on radio and television in many different countries.
