AuraTransformation™ is a treatment method which powerfully activates the influx of the New Time energy. In short, an AuraTransformation™ provides a permanent and radical expansion of consciousness which anchors a synergy between your charisma, drive and intuition, together with physical action.

The AuraTransformation™ and the related expansion of consciousness implies many advantages on the personal and universal fronts. An AuraTransformation™ dramatically reinforces the impact of your individual energy field interface with physical reality. Therefore, you naturally and gracefully become less and less troubled by either smaller or larger challenges that may initially appear to be coming from outside of yourself. Your energy is not unconsciously fueling hidden agendas and programs that your true inner self does not agree with. This releases a clear stream of energy from a reservoir that was formerly dammed up, stagnant, and murky. You obviously become more happy and focused.

AuraTransformation™ is not necessarily to be thought of as simply a healing method per se but primarily as a tool used for the benefit of individuals who want to upgrade and expand their consciousness to match the energies of the current times in which we are living.

An AuraTransformation™ lets the spirit energy of the aura open up for the new strong Indigo and Crystal energy impulses. It then delivers the impulses to the physical body via the balance aura body such that the physical body can translate the impulses into action.

An AuraTransformation™ in itself is not a quick fix solution to solving all of life's problems. Rather, it opens a doorway to a process of reclaiming your own power. AuraTransformation™ is not a substitute for qualified health care for the physical body and/or the mind and is not intended to cure diseases. AuraTransformation™ is intended for people who are relatively stable in their physical and mental health. Furthermore, it is especially important not to get an AuraTransformation™ when emergency professional help is needed.

AuraTransformation™ isn't something you try out, just to see what it's all about. An AuraTransformation™ is a permanent and thorough expansion of your personal consciousness and awareness with no option of regretting – once it's done, it's done!

Following an AuraTransformation™ you seriously begin to take shortcuts in life, but it's you who do all the work. In the New Time, there's nobody else who will do the job for you. Everything will at all times be based on your own effort in life to the fullest extent possible.

An AuraTransformation™ is performed by a well-trained and qualified Aura Mediator™. The Aura Mediator™ works with pure balanced energy during the AuraTransformation™ which is completely integrated into the client's energy system. The AuraTransformation™ jump starts a key personal evolutionary process beyond the artificially made illusions of duality and hierarchy consciousness. This affords a deep inner balance that can't be described in words. It simply has to be experienced.

THE FOUNDER – ANNI SENNOV

Anni Sennov is the founder of AuraTransformation™, which is a powerful method for expanding your consciousness. Furthermore, she is the founder of the Aura Mediator Courses™ which take place in different countries mainly in Europe. She works on a daily basis with the directors and course instructors of the Aura Mediator Courses™ around the world.

Anni Sennov is a clairvoyant advisor, international lecturer and the author of more than 20 books about spiritual energy, consciousness and self-development, as well as AuraTransformation™, personal development, New Time children and relationships, etc., of which several books have been translated from Danish into a number of languages.

Together with her husband Carsten Sennov, she is a partner in Good Adventures Publishing, as well as in the coaching & consulting firm SennovPartners, where she advises clients about personal development, energy and consciousness.

Anni and Carsten Sennov have jointly developed the personality type indicator the four element profile™, which includes four main energies corresponding to the four elements Fire, Water, Earth and Air, which are represented in all people in different balances and strengths.

Anni Sennov was born in Denmark in 1962 and she originally began her career in the financial world. Since 1993 she has had her own practice with personal counseling and her great strength is her ability to clairvoyantly perceive multiple relevant circumstances regarding her clients' personality and consciousness.

In 1996, after several years of serious illness and years of intense work with New Age Energies, she gained access to consciousness-wise knowledge of the New Time Energy and the future human aura structure, which no one else was familiar with in Scandinavia at the time. This was the dawn of a new controversial trend of having your aura transformed to match the New Time Energy through an AuraTransformation™.

Anni Sennov's work and books are mentioned in numerous magazines, newspapers and on radio and television in many countries.
